

bproauto® water pumps

100% new. No welds. No weak points.

bproauto® water pumps are built from **100% new cast aluminum or iron**, formed as a **single, solid piece** (no welds) for **strength and durability**. Precision-machined mounting surfaces ensure a **tight, leak-free seal** at installation and through part life.

Each pump is engineered to **match O.E. coolant flow rate and pressure**. They're **tested for bearing noise and durability** and come with the **bproauto parts limited warranty***.

**O.E. flow.
Aftermarket value.**

**See bproautoparts.com for complete warranty details.*

Partner with bproauto parts to provide your customers with maximum performance and a better driving experience.
