

## **bproauto<sup>®</sup> brake calipers**

### **Dependable and manufactured to O.E. specs.**

bproauto<sup>®</sup> high-quality, competitively priced, O.E.-backed brake calipers for most makes and models offer dependable, leak-free performance and are backed by an extensive warranty.

### **Never rebuilt. 100% NEW casting and components and tested to O.E. standards!**

- All calipers receive brand-new seals, boots, washers and bleeder valves
- Manufactured to O.E. specifications for each individual vehicle design, for cast iron or aluminum

- **Zinc plated** to protect from corrosion

- **Piston seals and dust boots** are made of high-quality EPDM to follow the best oil resistance and high/low temperature durability

- **Pre-lubricated** with high temperature synthetic lubricant [-40°C to +150°C] for smooth operation

### **100% end-of-line tested for tough, high-quality parts.**

#### **KIT CONTENTS**

- Bleeder screws
- Copper sealing washers
- Mounting brackets

- Vehicle fitment
- Seal integrity validated prior to packaging
- High/low pressure tested to ensure superior tightness
- Piston return testing to ensure proper caliper function
